

REMARKS/ARGUMENTS

Claims 1-46 are pending in the application. These claims are written as "Use" claims. They have been canceled from the application without prejudice to or disclaimer of applicants' right to pursue patent protection for the subject matter of these claims in either this or a subsequent application and replaced by new claims 47-77. These new claims are completely supported by the application as filed.

The specification has been amended to add Section Headings and a cross-reference to related applications. No new matter has been added.

Entry of this Amendment into the file of the application is respectfully requested.
